

Benefits of Membership of The National Federation of Prostate Cancer Support Groups

Tackle Prostate Cancer (the Federation) was started in 2008 by four patient-led prostate cancer support groups representing over 2,000 patients and their families from across the UK. The main aims of this new umbrella organisation were to be the voice of prostate cancer patients at a national level, to provide support to new or smaller groups and help strengthen the effectiveness of support groups by sharing ideas and best practice. Membership is now over 90 groups representing over 10,000 men and their partners.

In 2013, the Federation launched a campaign to increase public awareness of prostate cancer under the banner of Tackle Prostate Cancer.

Membership of the Federation currently gives you:

- An informative and lively quarterly [newsletter](#) and a further quarterly update – [Tackle Talk](#).
- An [AGM and Annual Conference](#) with keynote speakers on different aspects of prostate cancer.
- An opportunity to be involved at a national level in increasing [awareness of prostate cancer](#) and contributing to an agreed central approach to key issues of the membership eg campaigning, PSA testing. A unified force is a more effective force.
